# **Concluding Remarks**

## Weaknesses and Plans for Improvement

What is your unit struggling with? What plans do you have to overcome the weakness that you have faced in the next academic year.

- Weakness: Insufficient staff to meet goals including the goals to expand online test
  proctoring to all faculty, to expand transcription and closed captioning services, and to grow
  distributed learning courses, programs and enrollments.
- Plan for Improvement: ODL will continue to advocate for additional staff to meet these goals. Additional staff needed for course and media production and test proctoring.
- Weakness: Data reveals DL growth is occurring more at the undergraduate level, most online programs are offered at the graduate level.
- Plan for Improvement: ODL staff will use DL enrollment data and market analysis information when meeting with academic units to try to grow distributed learning courses and programs, especially at the undergraduate level.

## **Key Issues**

Identify key issues or potential challenges your unit will encounter this coming year and the steps you plan on initiating.

• Continue to collaborate with Academic and other support units to increase DL courses and programs and support for their delivery.

#### **Quantitative Outcomes**

Explain any surprises regarding data provided in the quantitative outcomes modules throughout this report.

- USC currently has 50, 100% online programs (and will have 53 in Spring 2021), which is 16% of all programs offered.
- In Fall 2019, 12,454 students (35.22%) enrolled in at least one DL course.
- Overall DL course enrollments increased 18% in the past five years (from 15,808 in Fall 2015 to 18,679 in Fall 2019) and the number of students taking at least one DL course has increased by 20.85% (from 10,305 in fall 2015 to 12,454 in Fall 2019).
- The largest increase in enrollment continues to occur at the undergraduate level: DL course enrollments increased 56.4% in the past five years (from 8,243 in Fall 2015 to 12,894 in Fall 2019) at the undergraduate level while DL course enrollments decreased 23.5% at the graduate level (from 7,565 in Fall 2015 to 5,785 in Fall 2019).
- Number of transcriptions produced by ODL has significantly increased as a result of the shift to remote and online learning as a result of the COVID-19 pandemic: 134 transcriptions were produced in AY 2018-19 while 435 were produced in AY 2019-20 (225% increase).
- Tests proctored in the ODL testing center was increasing until the testing center was closed due to the COVID pandemic. Despite being closed from mid-March to the end of August 2020, the testing center only saw a 5% decrease in total tests proctored compared to AY 2018-19. Had the testing center remained open, we would have seen a significant increase in tests proctored.
- Online test proctoring increased significantly from AY 2018-19 to AY 2019-20 as total tests proctored tripled. Online test proctoring using ProctorU was comparable across the two years (from 5122 in AY 2018-19 to 5024 in AY 2019-20); however Respondus Monitor, which was added as an option for all courses in April as a response to the transition to remote learning resulted in 10,512 tests proctored.

# **Concluding Remarks**

#### **Cool Stuff**

Describe innovations, happy accidents, good news, etc. that occurred within your unit not noted elsewhere in your reporting.

- 360-degree cardboard viewers, designed and branded by ODL, were distributed to multiple DL course students to support 360-degree video content, including the first virtual study abroad course offered at UofSC.
- 360-degree cardboard viewers, designed and branded by ODL, were distributed to attendees at the first Virtual Teaching Conference at UofSC.
- Provided 32 webinar-based presentations on Best Practices for Recording Video Lectures, Creating Transcriptions/Closed Captions, and PowerPoint Voice-Over Narration with 230 total attendees to enable faculty to switch to remote learning and offer online and blended courses in response to the COVID-19 pandemic.
- Worked with UofSC campuses and Registrar to develop two new instructional method codes to more accurately reflect course offerings: DWEBS (100% online web synchronous) and DWEBM (100% online Mixed Asynchronous and Synchronous).
- Worked with CTE, DolT, Libraries, Office of Academic Integrity, Provost's Office, and Student
  with Disability Resource Center to develop the Keep Teaching page to enable faculty to shift
  to remote learning during the COVID-19 pandemic.
- Organized then held Virtual Teaching conference with CTE, the College of Engineering and Computing, the College of Education, and the School of Journalism and Mass Communications to be held March 2020.
