February 22, 2019 Faculty Senate Meeting
USC-Columbia

Report from USC-Columbia Faculty Welfare Committee

To: Palmetto College Campuses Faculty Senate

From: Shelley AJ Jones, Extended University
PCC Representative to USC-Columbia Faculty Welfare Committee—2018-2020

Meeting Dates: December 3, 2018 and January 28, 2019

The committee continues to work on the following faculty concerns: transparency in the Excellence Initiative process, beginning the process to add tenure and promotion timelines to the Columbia faculty manual, coordinating with the Columbia Faculty Advisory Committee to work on faculty issues with Bright Horizons child care provider, the need for faculty communication (for Faculty Senate to be able to communicate with the faculty body, for example), and partnering with COMET for a reduction in public transportation fares for faculty. Specific updates include:

- The money for the Excellence Initiative is being held in a dedicated account that can only be accessed by the Board of Trustees. The committee can request balance information at any point.
- The committee will go over drafts of t & p timelines in its February meeting.
- The committee surveyed faculty and staff regarding their experiences with Bright Horizons and met with Kim Elliott, Steve Augustine, Angie Baum, and Stacey Bradley in its December meeting. Data is being compiled for sharing with Columbia Faculty Senate.
- The committee is working to develop a list-serv for faculty communication.
- The committee met with COMET representatives, who said that COMET would require a formal partnership, including a donation, for reduced fare for UofSC faculty and staff.

Two further concerns have been brought to the committee's attention, which will be taken up at upcoming meetings: bike and pedestrian safety on the Columbia campus and payroll deductions for charitable contributions.

2. Dr. Nesmith attended the Academic Program Liaison meeting on the 21st. He has asked that it be on the agenda to bring up a reminder to all colleges and departments to check the “Yes” option in the approval system for the question regarding the proposal’s effect on other campuses, if it is a course we currently offer, or if it is a new 100- or 200-level course (in most cases).
3. Vice Provost Sandra Kelly attended the last meeting on February 11th to discuss experiential learning and the possible processes for who would approve experiential courses. It was decided that another committee should be created to assess the development of these courses other than Courses and Curriculum or INDEV.

Respectfully Submitted,
