The Office of Career Management

Greetings from the **Office of Career Management** (yes we have a new name!) We will also have some new faces when you return in August since our office is expanding to work with undergrad Moore School students as well as our graduate populations. Watch for more news in the May edition of *On Track*.

In the meantime, please begin thinking about your fall job search! In late May Jane Willis will send you an email with an online PowerPoint/Breeze presentation. It is crucial that you take the time to view it. The presentation will contain Job Fair, Lee Hecht Harrison and recruiting information, all of which are important to your future career.
